

OUTSCHOOL INC.

NOTICE REGARDING CHILDREN'S INFORMATION

This section explains our information collection, disclosure, parental consent practices and parental choice procedures with respect to information provided by children under the age of 13 ("Child" or "Children"). This policy is in accordance with the U.S. Children's Online Privacy Protection Act ("COPPA"), and outlines our practices in the United States regarding Children's personal information. For more information about COPPA and general tips about protecting Children's online privacy, please visit [OnGuard Online](#).

Collection: Outschool collects information about students directly from Parents and Guardians ("Parents") and Schools, who provide us with the Child's first name, age, type of schooling, local time zone, and additional notes for the Teacher. In addition, Children may share information about themselves during Classes. The Outschool class sessions may take place over online videos in which video images and audio of the Children are recorded. No information is collected directly from Children until they are in the course session. Children cannot post personal data publicly on the Outschool Services.

Use and Disclosure: Outschool shares the name, age, local time zone, and any notes Parents have provided about their Child to the Class Teacher, in order to allow the Teacher to provide Classes. This information shall also be treated as part of the Parent's "Personal Data" and may be shared as described in the Disclosure section above for business transfers; to vendors and service providers; and to comply with legal requirements. Children may also share information about themselves with the Teacher and the rest of their class during the Class session voluntarily. While Outschool expects Teachers and all other Users to abide by our standards of conduct, please note that we cannot control or monitor what personal information your Child shares with Teachers or other classmates, nor what those third parties ultimately do with that information, and we disclaim all responsibility in that regard.

Class Video Recordings: As described above, Outschool records video of students and teachers during Outschool classes ("Class Recordings"). The Class Recordings are made available by Outschool to the Teacher of the Class and may be shared by the Teacher for the entire class (and their Parents) to view (the "Permitted Recipients"). Please note that in some cases, Classes are taught by a "Teacher" that is actually an organization, group, or team of instructors ("Teacher Organization"). In such cases, Class Recordings may be accessed by the entire Teacher Organization, and access would not necessarily be limited to a single individual instructor. Outschool may also

use Class Recordings to provide feedback to Teachers, for customer support, and for compliance purposes. Outschool will obtain additional parental consent before we use any Class Recordings for promotional or other purposes. We utilize reasonable means to (i) limit the ability of Teachers to create copies of the Class Recordings or to share the Class Recordings with anyone aside from Permitted Recipients, and also (ii) limit the ability of Permitted Recipients to download or re-share the Class Recordings. While we expect Teachers and Permitted Recipients to abide by our standards of conduct, please note that we cannot control or monitor what such third parties ultimately do with Class Recordings, and disclaim all responsibility in that regard.

Parental Consent: Outschool obtains verifiable parental consent before collecting Personal Data from your Child. Outschool requires that you provide your credit card information in order to register your Child for and pay for an Outschool Class. If you do not consent, then we will not collect, use or disclose any personal information about your Child, and your Child will not be allowed to use the Services in any way. If you are not using our services for any other purposes and do not provide consent within a reasonable time from the date the direct notice was sent, we will also delete your online contact information from our records. Alternatively, a parent may provide verifiable consent by signing this notice and returning it to us via U.S. mail, fax, or electronic scan.

Parental Choices and Controls: At any time, you can refuse to permit us to collect further Personal Data from your Children in association with your account, and can request that we delete from our records the Personal Data we have collected in connection with that account. Please keep in mind that a request to delete records may lead to a termination of an account, membership, or other service. You may update your Child's information by logging onto your account. You can contact Outschool to request access to, change, or delete your Child's personal information by sending an email to us at privacy@outschool.com. A valid request to delete personal information will be accommodated within a reasonable time. In addition to the foregoing, we will exercise commercially reasonable efforts to delete personal information belonging to Children when it is no longer needed for the purpose for which it was collected.

Contact Us: If you have questions or comments about Outschool's data collection practices concerning your Child, please review our [Privacy Policy](#). You can also contact us at: safety@outschool.com

I have read the above notice regarding Outschool's privacy practices regarding personal information it collects from children under 13, and hereby agree to the collection, use and disclosure of our students' personal information as explained above.
